**We Are A Manufacturer**

To the Buzz team!

We are excited about the new renovations going on at the Buzz Seating factory in Cambridge, Ontario. Our plant manager has taken great strides in rearranging and expanding our facility. Buzz has opened the assembly floor to almost double its original size, while moving our sewing facility to the second floor for more area. One of the great attributes of Buzz Seating is that we are a true manufacturer. This sets us above a lot of our competition, that just import products. We are constantly coming up with innovative ways to improve our products to satisfy demands of the end user. Please check out our web site at [www.buzzseating.com](http://www.buzzseating.com) to see some of the incredible seating we create in Canada.

Have you heard the Buzz?
